1. Program Overview プログラムの概要

The mission of Osaka University is to nurture outstanding individuals who possess a high sense of ethics and wish to become global citizens and leaders in a variety of fields worldwide under the objective of “Live Locally, Grow Globally”.

For this reason, the Department of Mathematics, the Department of Physics, and the Department of Chemistry in the School of Science have established the International Undergraduate Program in Science for international students.

Students will be enrolled in the program for 4.5 years in total (half a year as a research student and 4 years as an undergraduate student) culminating in the award of a Bachelor’s degree.

This program is overseen by the International College and the School of Science of Osaka University.

The School of Science and the International College welcome:

- Applicants who are curious, have a strong interest in natural science, and are enthusiastic toward broadening their knowledge base.
- Applicants who aim to contribute to the development of science and technology and thus to the whole of society.
- Applicants who have a desire to participate in the creation of new academic disciplines.
- Applicants who wish to develop their ability to describe and present their ideas logically, and improve their communication skills along with their research capabilities in both English and Japanese.
- Applicants who are ethically grounded.

The outline of the program is:

- Entrance examinations are conducted in English by each department (or in English and Japanese in the case of the Department of Mathematics).
- For six months prior to regular enrollment, students attend intensive Japanese language education classes and some preliminary science classes at the Center for Japanese Language and Culture (CJLC). During this time, students will be enrolled as research students. The nature of the Japanese language education classes will depend on each student’s individual Japanese language ability.
- Students will then be enrolled as undergraduate students. In the first year, students will take classes mainly in English, and study liberal arts and science major subjects.

- Further advanced Japanese language education will be offered until the end of the second year of the undergraduate program.
- Students will focus on specific subjects in the students' respective majors from the second year, and the classes will transition from mainly being taught in English to mainly being taught in Japanese.
- Students will be assigned to a specific laboratory to conduct research in their final year.

2. Duration of the Program プログラム期間

Preliminary and intensive Japanese language education (as a Research Student of the Center for Japanese Language and Culture):

From October 1, 2023 to March 31, 2024 (6 months)

Undergraduate School (as an Undergraduate Student of the School of Science):

From April 1, 2024 to March 31, 2028

3. Student Intake 募集人員

The number of students admitted each year will be small to allow for intensive supervision. Students can be admitted to one of the following three departments:

Department of Mathematics, School of Science

Department of Physics, School of Science

Department of Chemistry, School of Science

4. Eligibility for Application 出願資格

In order to apply to this program, applicants must meet certain requirements set by the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT). Accordingly, students meeting at least one of the following criteria by September 30, 2023 can apply.

- (1) International applicants (students from outside of Japan) who have completed a standard 12-year school education curriculum of a country other than Japan. Included here are applicants who have completed a standard 12-year school education curriculum in a country outside Japan in less than 12 years as a result of being promoted up a grade ahead of their peers.

- (2) International applicants who are at least 18 years of age and who have passed an examination in a country other than Japan which certifies that they have scholastic ability equivalent to a person who has completed a standard 12-year school education curriculum in the said country.
- (3) International applicants who have completed a school curriculum in a country other than Japan that corresponds to that of a senior high school in Japan (including those who have passed an examination which certifies that they have scholastic ability equivalent to a person who has completed such a curriculum), and who have completed pre-university preparatory education required for admission to Japanese universities as designated by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
- (4) International applicants who have completed a curriculum in a school that is considered to be the equivalent of high school (upper secondary) level and met the requirements stipulated by the Japanese Ministry of Education, Culture, Sports, Science and Technology. The applicants should have completed at least 11 years of education in a country outside Japan at institution(s) that meet standards laid down by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
- (5) Applicants who have completed a program of study at an educational institution considered within the educational system of a foreign country to be equivalent to the school curriculum corresponding to Japanese senior high school in that country (only if completion of the program is considered comparable to completion of a standard 12-year school curriculum under the country's school education system).
- (6) Applicants who have completed a program of study at an educational institution considered within the educational system of a foreign country to be equivalent to the school curriculum corresponding to Japanese senior high school in that country (even if completion of the program is not considered comparable to completion of a standard 12-year school curriculum under the country's school education system) and who have completed pre-university preparatory education required for admission to Japanese universities as designated by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
- (7) Applicants who have obtained the International Baccalaureate qualification awarded by the International Baccalaureate Organization in Switzerland.
- (8) Applicants who have obtained the Abitur issued by the Federal Republic of Germany for college entrance.
- (9) Applicants who have obtained the Baccalaureate Diploma issued by the French Republic for college entrance.

- (10) Applicants who have obtained the General Certificate of Advanced Level accredited as a qualification for admission to a university in the United Kingdom of Great Britain and Northern Ireland.
- (11) Applicants who have completed the standard 12-year school curriculum in one of the special schools for foreigners in Japan that are certified by the international evaluating organizations designated by the Ministry of Education, Culture, Sports, Science and Technology (WASC, ACSI, CIS).

Notes:

- * Applicants who have completed their studies at a non-accredited international school in Japan or are unsure whether they are eligible to apply, should contact the office of the International College as early as possible before applying.
- * Applicants are encouraged to apply only if they plan to pursue their studies continuously and without interruption from enrollment to graduation. In particular, applicants from countries with compulsory-military-service requirements should ensure they do not have to fulfill their military-service requirements while enrolled in the program.
- * In case applicants do not arrive in Japan by the date designated by the university, their enrollment might be cancelled even if they would be able to start their studies by October 1, 2023.
- * Even after enrollment, applicants can be expelled for poor attendance or unsatisfactory grades.

5. Application Procedure 出願手続

- (1) First of all, applicants should visit the following Application Registration website and complete their registration. <https://e-apply.jp/n/osaka-u-inter>

All certificates and other application documents must have an English translation attached if they are not originally in English.

Application Documents-1

Application Form 入学願書

After completing registration at <https://e-apply.jp/n/osaka-u-inter>, applicants should receive an automated reply e-mail containing a URL for the application form.

Application Documents-2

Documents Certifying Eligibility for Application 出願資格を証明する書類

See below for documents required for applicants under each of the application eligibility criteria (see 'eligibility for application' in section 4. Eligibility for Application).

Criterion 1 Criterion 4	(1) Certificate of graduation from the last school attended or a corresponding certificate of scheduled graduation. In case the last school attended is of a higher education level (university or other tertiary institution), then the secondary level certificate of graduation (corresponding to high school in Japan) should also be included. (2) Academic transcript from the last school attended. In case the last school attended is of a tertiary education level (e.g., university), then the secondary-level academic transcript (corresponding to high school in Japan) should also be included.
Criterion 2	(1) Certificate stating that the applicant has passed the relevant examination. (2) Score report of the relevant examination.
Criterion 3 Criterion 6	(1) Academic transcript and certificate of graduation from a school corresponding to Japanese senior high school (applicants who have passed the certification exams should present their certificate of passing and score report). (2) Certificate of completion of pre-university preparatory education or certificate of scheduled completion.
Criterion 5	Academic transcript and certificate of graduation from a school corresponding to Japanese senior high school level.
Criterion 7	(1) Copy of the International Baccalaureate Diploma. (2) Certificated results from the International Baccalaureate (six subjects final exams).
Criterion 8	Copy of the General Qualification Form for University Entrance (Zeugnis der Allgemeinen Hochschulreife).
Criterion 9	(1) Copy of the French Baccalauréat Diploma. (2) Certificated results from the French Baccalauréat Examination.
Criterion 10	(1) Copy of the General Certificate of Advanced Level. (2) High school transcript.
Criterion 11	(1) Certificate of graduation or certificate of scheduled graduation. (2) Academic transcript from a school certified by an international evaluating organization.

Important notes when preparing the application documents:

- * Applicants who have not yet graduated from high school at the time of application may submit a certificate of expected graduation and predicted scores for the academic transcript.
- * If subjects and score details on the academic transcript are written in codes or abbreviations, the appropriate description in English should be attached.
- * All certificates and other documents need to be certified copies as issued by the school principal or the corresponding highest-level administrator.

Application Documents-3

Letter(s) of Recommendation 推薦書

Applicants should have at least one letter of recommendation submitted from the principal and/or a senior science teacher of the last secondary school they attended. A science teacher who knows the applicant well is preferable. The letter(s) should include an evaluation of both their personality and academic ability. The letter(s) should be on official letter head, signed by the principal/teacher, and sealed (unsealed letters will not be accepted).

Application Documents-4

Results of Standardized Test(s) for University Admission

大学入学共通テストの結果

Applicants who studied under the International Baccalaureate Educational System (IB) should submit a copy of their International Baccalaureate Diploma and their IB final examination performance evaluation certificate. The institution code of Osaka University for IB is **036164**. Preferred subjects are HL Mathematics, Physics, and Chemistry.

Applicants who studied under the GCE Advanced Level System should submit one of the following:

- a) Their results of three subjects of the GCE Advanced Level.
- b) Their results of a total of four subjects: two of the GCE Advanced Level and two of the GCE Advanced Subsidiary Level.

Preferred subjects for both a) and b) are Mathematics (Further Mathematics for applicants to the Department of Mathematics), Physics, and Chemistry.

Applicants not belonging to the above two categories should submit, if possible, official scores of the Examination for Japanese University Admission for International Students (EJU). In this case, applicants should submit their official scores for Chemistry and Physics for science, and Course 2 for Mathematics, either in English or Japanese.

Note that we accept EJU scores also from candidates that have studied in the IB or GCE systems, if they prefer to send us EJU scores rather than or in addition to IB or GCE results.

Otherwise, applicants should submit official scores of any other standardized academic tests for university entrance that they have taken. Note, however, that we do not accept SAT scores. For tests in which it is possible for the candidate to choose examination subjects, subjects relevant to the IUPS (Mathematics, Physics, Chemistry) should be included. Examples of specific standardized test scores that may be submitted are in the following table. Note that these are given only as examples.

Country	Test name
China	<ul style="list-style-type: none"> • The National College Entrance Exam (GAOKAO) • General Senior Secondary Graduation Examination (Huikao) • Hong Kong Diploma of Secondary Education Examination (HKDSE)
France	Baccalaureate
Germany	Abitur
India	Class XII Examinations (CBSE/CISCE or state examination boards)
Korea	College Scholastic Ability Test (CSAT)
Malaysia	<ul style="list-style-type: none"> • Peperiksaan Semester Program Matrikulasi (PSPM) • Sijil Tinggi Persekolahan Malaysia (STPM)
Nepal	School Leaving Certificate (LCE)
New Zealand	<ul style="list-style-type: none"> • National Certificate of Educational Achievement (NCEA) Level 3. • Record of New Zealand Scholarship
Taiwan	General Scholastic Ability Test (GSAT)
U.S.A.	<ul style="list-style-type: none"> • ACT (Institution Code of IUPS for ACT is 7042) • AP (Recommended AP Subjects are Chemistry, Physics (any of the AP physics courses), and Calculus AB; Institution Code of IUPS for AP is 7895)
Vietnam	National High School Graduation Exams (NHSGE)

In cases where the test result is either pass or fail, applicants need to have passed the test. We will accept predicted scores for those who have not graduated yet. Pending graduation certificates, final academic transcripts, and test scores should be submitted as soon as they become available. Applicants may submit their scores or results, or their school may send them directly to Osaka University.

Please note the following:

If the documents to be submitted are written in a language other than English, a verified translation into English needs also to be sent. Verification of a translation (consistency between the translations and the originals) may be obtained at an embassy, at the high school of the applicant, or at other organizations.

Application Documents-5

Essays 志望理由書

Applicants should submit 2 essays, on the following topics.

- (1) **“Why you wish to study in the International Undergraduate Program in Science”.**
- (2) **“What topic in science has captured your imagination recently, and why”.**

Approximately 500-1000 words in English for each essay. Essays of less than 500 words or handwritten instead of typed may be rejected in the screening.

Application Documents-6

Application Fee Payment Certificate 検定料収納証明書

13. Handling of Personal Information 個人情報取り扱い

- (1) We will use personal information, such as names and addresses, provided in the application form and submitted documents only for the selection process and for the smooth implementation of Japanese Language Education at Center for Japanese Language and Culture of Osaka University after passing the selection process.
- (2) We may outsource some of the above-mentioned tasks to a third party. In this instance, we will conclude an agreement with the third party to assure that it will manage the personal data appropriately.

14. Visa/Status of Residence ビザ/在留資格

International students who have decided to study at Osaka University must obtain a student visa at a Japanese Embassy or Consulate General of Japan before coming to Japan.

When you apply for a visa, you must submit a Certificate of Eligibility for Status of Residence (CESR). The Osaka University Support Office for International Students and Scholars applies for the CESR to the Immigration Bureau in Japan, and once the certificate is issued, the Support Office will send it to the applicant.

Details will be provided at the time of sending the letter of acceptance.

Please note that if your status of residence is other than "Student", you will not be entitled to any privileges as a foreign student, such as certain scholarship applications.

15. Economic Support 経済援助

- (1) There are various scholarships that IUPS students can apply for after enrollment, such as:
 - Monbukagakusho Honors Scholarship for Privately-Financed International Students (i.e., JASSO scholarship)
 - Scholarships from the School of Science, Osaka University
 - Scholarships from local governments or international associations
 - Scholarships from private foundations
- (2) All Osaka University students are eligible to apply for tuition fee exemption. See also the Osaka University webpage.

16. Accommodation Support 住居サポート

Students enrolled in this program will be preferentially assigned to an on-campus dormitory for their first year (i.e., six months as a research student and six months as an undergraduate). Students are responsible for their own dormitory fees (19,000 JPY per month as of 2022; subject to change).
