# 1. Program Overview

The mission of Osaka University is to nurture outstanding individuals who possess a high sense of ethics and wish to become global citizens and leaders in a variety of fields worldwide under the objective of “Live Locally, Grow Globally”.

For this reason, the Department of Mathematics, the Department of Physics, and the Department of Chemistry in the School of Science have established the International Undergraduate Program in Science for international students. The program will take 4.5 years in total and award a bachelor’s degree. This program is overseen by the International College of Osaka University.

The outline of the program is:

- Entrance examinations are conducted in English for each department.
- For six months prior to enrollment, Osaka University will offer intensive Japanese language education and some preliminary science classes depending on the chosen major.
- Enrolled students mainly take classes in English at the beginning of the undergraduate program. In the first 1.5 years of the program, students study liberal arts subjects and major subjects in English and/or Japanese together with Japanese undergraduate students.
- Osaka University offers advanced Japanese language education for the first 1.5 years.
- Students then focus on specific subjects in the students' respective majors, which are taught mainly in Japanese.
- Students enrolled in this program will be assigned to on-campus dormitories for the first year on a preferential basis.

The School of Science and the International College welcome:

- Applicants who are curious, have a strong interest in natural science, and are enthusiastic toward broadening their knowledge base.
- Applicants who aim to contribute to the development of science and technology and thus to the whole of society.
- Applicants who have a desire to participate in the creation of new academic disciplines.
- Applicants who wish to develop their ability to describe and present their ideas logically, and improve their communication skills along with their research capabilities.
- Applicants who are ethically grounded.

## 2. Duration of the Program

Preliminary and extensive Japanese language education :

From October 1, 2020 to March 31, 2021 (6 months)

Undergraduate School: From April 1, 2021 to March 31, 2025

### 3. Student Intake

The number of students admitted each year will be small to allow for intensive supervision.

Department of Mathematics, School of Science:

Department of Physics, School of Science:

Department of Chemistry, School of Science:

### 4. Eligibility for Application

In order to apply to this program, applicants must meet certain requirements set by the Japanese Ministry of Education, Culture, Sports, Science and Technology (MEXT). Accordingly, students meeting at least one of the following criteria by September 30, 2020 can apply.

1. International applicants (students from outside of Japan) who have completed a standard 12-year school education curriculum of a country other than Japan. Included here are applicants who have completed a standard 12-year school education curriculum in a country outside Japan in less than 12 years as a result of being promoted up a grade ahead of their peers.
2. International applicants who are at least 18 years of age and who have passed an examination in a country other than Japan which certifies that they have scholastic ability equivalent to a person who has completed a standard 12-year school education curriculum in the said country.
3. International applicants who have completed a school curriculum in a country other than Japan that corresponds to that of a senior high school in Japan (including those who have passed an examination which certifies that they have scholastic ability equivalent to a person who has completed such a curriculum), and who have completed pre-university preparatory education required for admission to Japanese universities as designated by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
4. International applicants who have completed a curriculum in a school that is considered to be the equivalent of high school (upper secondary) level and met the requirements stipulated by the Japanese Ministry of Education, Culture, Sports, Science and Technology. The applicants should have completed at least 11 years of education in a country outside Japan at institution(s) that meet standards laid down by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
5. Applicants who have completed a program of study at an educational institution considered within the educational system of a foreign country to be equivalent to the school curriculum corresponding to Japanese senior high school in that country (only if completion of the program is considered comparable to completion of a standard 12-year school curriculum under the country's school education system).

6. Applicants who have completed a program of study at an educational institution considered within the educational system of a foreign country to be equivalent to the school curriculum corresponding to Japanese senior high school in that country (even if completion of the program is not considered comparable to completion of a standard 12-year school curriculum under the country's school education system) and who have completed pre-university preparatory education required for admission to Japanese universities as designated by the Japanese Ministry of Education, Culture, Sports, Science and Technology.
7. Applicants who have obtained the International Baccalaureate qualification awarded by the International Baccalaureate Organization in Switzerland.
8. Applicants who have obtained the Abitur issued by the Federal Republic of Germany for college entrance.
9. Applicants who have obtained the Baccalaureate Diploma issued by the French Republic for college entrance.
10. Applicants who have obtained the General Certificate of Advanced Level accredited as a qualification for admission to a university in the United Kingdom of Great Britain and Northern Ireland.
11. Applicants who have completed the standard 12-year school curriculum in one of the special schools for foreigners in Japan that are certified by the international evaluating organizations designated by the Ministry of Education, Culture, Sports, Science and Technology (WASC, ACSI, CIS).

Notes:

1. Applicants who have completed their studies at a non-accredited international school in Japan or are unsure whether they are eligible to apply, should contact the office of the International College as early as possible before applying.
2. Applicants are encouraged to apply only if they plan to pursue their studies continuously and without interruption from enrollment to graduation. In particular, applicants from countries with compulsory-military-service requirements should ensure they do not have to fulfill their military-service requirements while enrolled in the program.
3. In case applicants do not arrive in Japan by the date designated by the university, their enrollment might be cancelled even if they were able to start their studies on October 1, 2020.
4. Even after enrollment, applicants can be expelled for poor attendance or unsatisfactory grades.

## 5. Application Procedure

1. First of all, applicants should visit the following Application Registration website and complete their registration. <https://e-apply.jp/n/osaka-u-inter>  
After completing the registration, applicants will receive an automatic reply e-mail containing a mailing address for the application documents and a URL for downloading the application form.
2. Next, applicants should pay the application fee. For more details, please refer to page 12.
