## イベント報告/Event Report

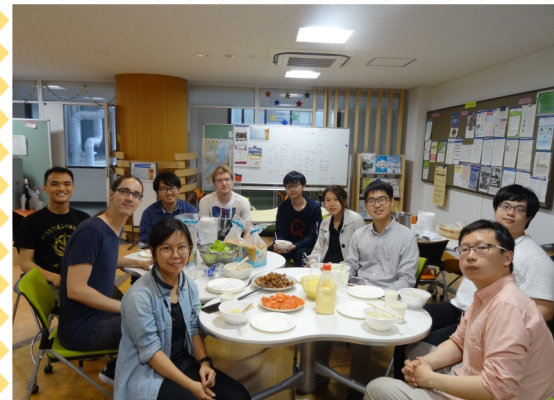

## Bus Tour for International Students of GSS

My name is Huang Xuhao, coming from China, a master student in the department of chemistry. I am honored to have a chance offered by school of science to participate in the bus tour. This is my first time to appreciate this scenery of Lake Biwa, the largest freshwater lake in Japan, and to make pottery in Shiga prefecture. After 1.5 hours driving, we arrived at Shiga prefecture, circling around lake Biwa, and a part of the Kansai region in the western part of Honshu island. At first, we experienced the pottery making. During this process, everyone take advantages of their creativity to make assorted artworks. Then, we all together enjoyed a traditional Japanese meal which was absolutely unique and delicious. After meal, we visited Lake Biwa museum and Oumi Jingu in which not only visited the beautiful scene, but also understood local culture of there. In a word, this bus tour was helpful to broaden my horizons, and I really enjoyed this trip. Also, I am thankful to nishiguchi san, other staffs and friends for giving us this excellent bus tour.
