

Announcement

The main changes to the Special Entrance Examination for the IUPS from 2026(for April 2027 Enrollment) onwards are as follows regarding the results of Standardized Test(s) for University Admission. Please refer to the guideline for details.

Department of Mathematics

2026 Enrollment	From 2027 Enrollment
Only one of the following is accepted. (i) Examination for Japanese University Admission for International Students (EJU). Required subjects are Mathematics Course 2, Physics and Chemistry. Applicants choosing EJU must submit their score sheet with its validity period. (ii) International Baccalaureate (IB). Applicants choosing IB must submit the scores of all subjects they took, which must include Mathematics HL, Physics HL, and Chemistry HL. (iii) General Certificate of Education Advanced Level (GCE A Level). Applicants choosing GCE A Level must submit the scores of A Level Mathematics or A Level Further Mathematics for mathematics, A Level Physics and A Level Chemistry for science. The Department of Mathematics strongly recommends that the applicants should submit A Level Further Mathematics instead of A Level Mathematics	(1) International Baccalaureate (IB) Applicants who studied under the International Baccalaureate Educational System (IB) should submit a copy of their International Baccalaureate Diploma and their IB final examination performance evaluation certificate for a) HL Mathematics. b) Two results out of HL Physics, HL Chemistry and HL Biology. (2) General Certificate of Education Advanced Level (GCE A-Level) Applicants who studied under the GCE Advanced Level System should submit: a) Either GCE Advanced Level Mathematics or Further Mathematics results, * b) For the Department of Mathematics, two GCE Advanced Level results out of three from Physics, Chemistry and Biology. * Applicants are highly recommended to submit results for Further Mathematics instead of Mathematics. (3) Examination for Japanese University Admission for International Students (EJU) Applicants not belonging to the above two categories should submit official scores of the Examination for Japanese University Admission for International Students (EJU). In this case, the required EJU Subjects, either in English or Japanese, are a) Mathematics Course 2, b) Two results out of Physics, Chemistry and Biology. (Note that we accept EJU scores also from candidates that have studied in the IB or GCE systems, if they wish to send us EJU scores in addition to IB or GCE results.)

Department of Physics

2026 Enrollment	From 2027 Enrollment
(1) International Baccalaureate (IB) Preferred subjects are HL Mathematics, Physics, Chemistry, and Biology.	(1) International Baccalaureate (IB) Preferred subjects are : - HL Mathematics, HL Physics, and either HL Chemistry or HL Biology

Department of Chemistry

2026 Enrollment	From 2027 Enrollment
(1) International Baccalaureate (IB) Preferred subjects are HL Mathematics, Physics, Chemistry, and Biology.	(1) International Baccalaureate (IB) Preferred subjects are : - HL Mathematics, HL Chemistry, and either HL Physics or HL Biology

Department of Biological Sciences

2026 Enrollment	From 2027 Enrollment
Only the official scores of the Examination for Japanese University Admission for International Students (EJU) are accepted. Chemistry and Physics for science, and Course 2 for Mathematics, either in English or Japanese should be submitted. No other test results are acceptable.	(1) International Baccalaureate (IB) Applicants who studied under the International Baccalaureate Educational System (IB) should submit a copy of their International Baccalaureate Diploma and their IB final examination performance evaluation certificate for a) HL Mathematics. b) Only HL Physics and HL Chemistry are accepted. (2) General Certificate of Education Advanced Level (GCE A-Level) Applicants who studied under the GCE Advanced Level System should submit: a) Either GCE Advanced Level Mathematics or Further Mathematics results, b) Only Physics and Chemistry are accepted. (3) Examination for Japanese University Admission for International Students (EJU) Applicants not belonging to the above two categories should submit official scores of the Examination for Japanese University Admission for International Students (EJU). In this case, the required EJU Subjects, either in English or Japanese, are a) Mathematics Course 2, b) Only Physics and Chemistry are accepted. (Note that we accept EJU scores also from candidates that have studied in the IB or GCE systems, if they wish to send us EJU scores in addition to IB or GCE results.)
