# 1 ) Taking courses

## ① Information for all students (IPC program and SISC program)

Students must obtain a certain number of credits in order to graduate (graduation credits). However, not all courses can offer you graduation credits. Below are some rules.

- In order to earn graduation credits from courses offered in a program, department, or graduate school different from yours, students need to obtain permission from their supervisor.
- In any case, graduation credits cannot be obtained by taking Japanese language courses in a different department, school, or graduate school.

## ② International Physics Course

### (Physics)

#### A. Master Course

A master's degree is awarded to a student who has acquired a total of 30 credits during the master course, including no less than 12 credits from courses and 4 Semestral Seminars (offered by their supervisor) for 18 credits.

Permission of one's supervisor is not necessary to obtain graduation credits from courses organized by the Department of Physics, including those organized mainly for doctoral students.

For a student who has shown exceptional research performance, a period of enrollment of only 1.5 years may be deemed sufficient (special permission necessary). Also in this case, the student needs to acquire a total of 30 credits to complete the program, including no less than 16.5 credits of courses and 3 Semestral Seminars for 13.5 credits.

#### B. Doctor Course

One Seminar for Advanced Research in each year and at least two Topical Seminars are required to complete the doctor course.

※If you have any questions about taking courses, please contact the following members.

Prof. Hosaka [hosaka@rcnp.osaka-u.ac.jp]

Prof. Koshino [koshino@phys.sci.osaka-u.ac.jp]

Students in the doctor course need to take a total of 12 or more credits: 2 or more credits from lectures and 9 credits from Seminar for Advanced Researches, and 1 credit from Interactive Seminar for Advanced Research.

### **(Biological Sciences)**

#### **A. Master's Program**

Students in the master course need to take a total of 32 or more credits: 14 or more credits from lectures and 18 credits from Semestral Seminars.

Students are encouraged to take a subject of Science Cores appropriate to each academic year unless they have a special reason not to, such as doing research in a remote area.

#### **B. Ph. D. Program**

Students in the doctor course need to take a total of 11 or more credits: 2 or more credits from lectures and 9 credits from Seminar for Advanced Researches.

Students are encouraged to take a subject of Science Cores appropriate to each academic year unless they have a special reason not to, such as doing research in a remote area. However, credits earned from taking Science Cores cannot be applied to completion requirements.
