### October: Welcome Party

We welcomed a lot of new students with delicious sushi and other meals. They introduced their home countries to each other, and chatted about their lab activities in a good mood. We are glad to welcome a lot of new colleagues! 'Welcome to OU, everyone!!' 沢山の新生を迎え、お寿司やオードブルなどの食事を楽しみながら、交流を深めました。お互いの国について紹介したり、ラボでの話をしたり、和気あいあいとした雰囲気でお話をしました。新しい仲間が増えて嬉しいです！

### January: Japanese Culture

We organized an event to experience calligraphy and origami, which are parts of Japanese culture. It was the first time for some international students to write using a brush with black ink and a vertical writing orientation. They wrote their goals for this year and created wonderful calligraphy!

毎年年始に行う、書道と折り紙の日本文化体験イベントを開催しました。書道では、筆を持ったり、縦に字を書くことが初めての留学生もいました。素敵な作品ができましたね！

## Introduction of SB member / SBメンバー紹介

INAGUCHI Kazuto  
Senior / Mathematics

Hello everyone! I'm Kazuto Inaguchi, a third-year student majoring in Mathematics at School of Science in Osaka University. Although my main reason for joining this university was my interest in mathematics, I also wanted to try something other than mathematics. When I entered my second year, one of my friends introduced Science Buddy to me, and it turned out to be exactly what I was looking for.

Being a leader in Science Buddy last year was an exciting experience for me. I engaged in planning and running exchange events for both international and Japanese students, aiming to bring people together through various activities. These experiences have enriched my life in this university.

The people in Science Buddy are incredibly kind and friendly, making it easy for me to make lots of friends. Having conversations with the students from different countries has led to various discoveries and shared experiences. It made me think that I'd like to keep being involved in international exchange to broaden my view.

Since I had no experience of international interaction it was a bit challenging for me to join Science Buddy at first, but Science Buddy provided a supportive environment that encouraged me to enjoy it. The experiences I've had here are invaluable and made a lot of influences to my life.

To those reading this article, I invite you to consider joining Science Buddy to make international friends and Japanese friends who might be able to support your life in Japan. Through Science Buddy, you can make your life here more comfortable and enjoyable, so why don't you join us?
